Do you accept pets?

Applicant FAQ · https://smarteggmgmt.com/faq/do-you-accept-pets-2/

It depends on the property but most of the time we do. We at SmartEgg are animal lovers but sometimes the landlords don’t allow pets due to allergies or home insurance policy limitations. The rental listing will indicate whether or not pets are allowed. Where pets are accepted, part of the application process is filling out a pet application through PetScreening for each pet.
